

CRUEL KARMA

1. Being a long way from my village so hurts my heart; I miss my mother; I miss the rice field that I just harvested; I miss everything that my mother told me “Don’t be swayed by the bright lights because the neighbours will curse you and say that you are not a good girl”.
2. Do you know how much garment workers suffer? We have no choice because we need money and our families are very poor. When I get sick my mother is not near to help and no one else takes care of me. There was rain, thunder, why is cruel karma befalling on us?
- R. Forced by my boss to work overtime; I never stop mum. I work, I never know if it is day or night. I budget my salary each month; but after rent, electricity, water and food, there is not much left. This I send home to you my family.
3. I suffering and cry alone, no one can help me solve this problem. My heart is full of sorrow and sadness, my mind is spinning. I hope that I can survive this and can go back to see my parents
