

## THE GARMENT WORKERS REAL STORY

1. This is a true story it is hard to believe; we dedicate it to all women in the world; the life of a garment worker is very complicated and we nearly die; we live without freedom and are discriminated against.
2. We work very hard even when it is hot, cold or we are sick but we still bear with the work; because we are afraid that they will cut our salary or sack us; so our hearts are full of sadness and sorrow.
- R. We are nervous about working everyday; oh! What do you think about us garment worker women? The quota agreement will finish by 2005, how then will our families survive?
4. Our patriotism is not valued; but it is a value with no comparison; the garment workers help the nation; we are strength to the Cambodian economy.
