

## LIFE OF THE GARMENT WORKERS

1. We are the garment workers; we do not have free time but we work everyday; we try to work overtime in the day and night; because we are the children of the poor.

2. The salary we get we have to pay for many things; with no money left; I help my mother to pay her debts and I am nearly dead. It is very hard for me to survive.

R. On the other hand we are looked down on by society; they insult us by saying we are bad girls; we live in an unjust world; so do you know how much us workers suffer?

3. We are workers in solidarity; we have to get out from this slavery; so it will be better off for us in the future.

Saying: stand up all friends; we have to think again; speak out the truth; we have to be together; whether near or far, to make our lives meaningful.
