

## PROBLEMS AT OUR RENTED ROOMS

1. Beautiful verdant greens accompany the blue sky, the sun is rising above the forest. Shining beautifully; you do not have problems like me.
  2. I feel very grim because the house owner does not understand me. They put up the price as they want, but what we get is never good.
- Ref. Look at our room! It is very small and narrow. If more people stay, they charge us more money. They never care about what problems that the workers face, they only care about their pockets.
3. I earn very little from my work, only \$30, because I am on probation. If the price of everything goes up like this, I will have nothing to send home to support my family.
- Ref At the end of the month, if we do not pay all our rent, the owner notes it charges us interest. As interest they double what we cannot pay, we can't complaint and next month they demand it all.
4. Because we are workers from the rural areas, the owner condemns us that we are not good women, they even forbid their children to talk with us.
