

## VOICE OF GARMENT WORKERS

**I.** The voice of garment workers must be used to shout to tell all Cambodian women that to be a servant is very difficult. They curse, they blame us and say we are bad girls, but we have no freedom and no rights.

**II.** We are all garment workers, we live in bad conditions, we struggle with difficulty, we are tired but we say nothing, we are hard working and much of this money I earn is dollars to help my mother.

**R.** The song that we sing is about the real life of garment workers, please pity us and consider the life of garment workers. How are we suffering? We are faced with suffering and problems because the factory owners exploit us.

4. **III.** When the workers are in trouble who can help to solve the problems? Where is the justice? When I need you why do you ignore me?
