

UNLUCKY WOMEN'S LIFE

- I-** How is the women's life? I live far a way from my parents and had to leave the lovely rice field. Because of dollars I hide myself for sex services and nobody cares a bout that.
- II-** When will I leave this situation? (Sadness, muddy and). Uncle, aunt, grandparents please forget me.
- R-** I shout and ask everybody, please forgive and pity on me. Think again, do not curse or punish me because in this word women do not wish to be in the troubled life.
- III-** These are our sins, so we must be strong and struggle in order to face the situation. How could I change, which way could I walk? Please help to guide me because I want to be lucky like other women.
